Description					
Land information plans submitted to the Department of Administration					

Assumptions Used in Arriving at Fiscal Estimate

Under current law, the Department of Administration (Department), the Departments of Agriculture Trade and Consumer Protection, Safety and Professional Services, Health Services, Natural Resources, Tourism, Revenue, and Transportation, the Board of Regents of the University of Wisconsin System, the Public Service Commission, and the Board of Curators of the State Historical Society are required to create plans to integrate land information and submit the plans to the Department. 2015 SB 570 eliminates this requirement.

The fiscal impact of this bill will be cost savings in the form of staff time saved for agency staff required to develop these plans and for Department staff required to integrate the submitted plans. It is likely staff will be given additional responsibilities in lieu of developing and integrating these plans; therefore, there is no state fiscal effect.
